## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 72-77, 81 and 83-86 are rejected under 35 U.S.C. 102(b) as being anticipated by Karas et al. (4,867,144).

Karas et al. disclose the claimed invention including positioning a platform 2 over fractured bone portions, inserting a fragment manipulator 7 through a bore 3 of the platform, engaging fractured bone with an end of the manipulator, threading a nut 9 onto the manipulator until the nut contacts the platform, and rotating the nut to reduce the bone (see, e.g., Figs. 1 and 6 and col. 1, lines 25 and 26 and col. 3, lines 3-6). The statement in the preamble indicating the intended use with respect to a craniofacial reduction procedure has not been given patentable weight since the remainder of the claim does not mention anything about a cranium, etc. The statement amounts to an intended use and the actual steps in the body of the claim are equally applicable to procedures that could be performed on other bones. Limitations directed to structure have not been given patentable weight insofar as they do not affect the actual steps of the method in a manipulative sense.

***Response to Arguments***

Applicant's arguments filed 26 September 2008 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
